

Adults with Autism Survey

Please complete this short survey to tell us what you think about the support for people with autism in Tower Hamlets. Your views will help shape our plans for the future, so that people with autism receive good quality support in the years to come.

Tower Hamlets Council has drafted an Autism Strategy for adults. We would like to know what you think about this and how we can make it better. The Strategy will describe what the council, the NHS and others will do to support adults with autism over the next three years. The objectives of the Strategy are in bold below.

Do you have autism or know someone who does?

- Yes
- No
- I know someone who has autism

We have identified eight overall objectives to better support people with autism

1. **Thinking about helping autistic people to feel like part of their community:**

What do you think works well for people with autism?

What could be better?

2. **Thinking about helping people with autism access good quality health and social care service:**

What do you think works well for people with autism?

What could be better?

3. Thinking about supporting autistic young people to transition into adulthood:

What do you think works well for people with autism?

What could be better?

4. Thinking about helping to raise people's skills and knowledge in relation to autism:

What do you think works well for people with autism?

What could be better?

5. Thinking about helping autistic people to find and keep work:

What do you think works well for people with autism?

What could be better?

6. Thinking about helping autistic people to live in good quality housing that meets their needs:

What do you think works well for people with autism?

What could be better?

7. Thinking about reducing and improving autistic people’s interaction with the criminal justice system:

What do you think works well for people with autism?

What could be better?

8. Thinking about helping those who care for friends and family with autism:

What do you think works well for people with autism?

What could be better?

9. Is there anything further that you would like to add?
